

Our Capability Statement

"It's the effort we put in that minimises stress for our customers, from early consultation to on-time delivery."

Ben Simpson
General Manager, DuraCube

When design and performance matter, DuraCube delivers. We partner with architects, designers and builders to provide fit-for-purpose bathroom joinery.

We're the first to uncover future design trends and are with you every step of the way. A dedicated DuraCube specialist works with you from tendering and manufacturing to delivery and aftercare. We lead the industry for a reason.

FOREWORD

Our people-centric business partners with clients to minimise stress and achieve exceptional results. We understand that wet areas are often overlooked until the pressure mounts to finalise a fitout.

We pride ourselves on our agility; it's what sets us apart. With decades of experience, we can design, deliver and install faster than anyone in the industry. So, when you need your spaces finished on time and to exacting standards, think DuraCube.

FIRST FOR

SOLUTIONS

The DuraCube story began in 1987 when builder Mark Simpson set up shop in west Sydney, creating custom residential kitchens and bathrooms.

Over the years, Mark’s sons joined the business, which grew steadily as word of mouth attracted larger commercial projects. Driven by a deep understanding of the design and challenges of wet areas, the family shifted focus in 2012, and DuraCube evolved.

Our Mission

We aim to combine our expertise and passion to design, create and deliver superior bathroom joinery for our customers.

Our Promise

We ensure timely delivery and proactively address issues at every stage. Our team works cohesively and communicates with customers through a single point of contact.

Our Values

We continue to innovate to remain your first-choice bathroom joinery systems partner. As a team, we always look for smarter ways to work, deliver on our promises, listen and think ahead. We never walk past a problem.

Our People

Our experienced team includes specialist consultants, project managers, estimators, CAD/CAM experts, pre-production managers, CNC operators, joiners and shopfitters.

50+ EMPLOYEES

DEDICATED TEAM
The foundation of our success is our loyal and committed team.

200,000+

DELIVERY
Over the years, we have delivered more than 200,000 cubicles.

5,000,000

COMPACT LAMINATE USE
Our team has used more than 5,000,000sqm of compact laminate.

We have the capacity to produce more than 1,000 cubicles per week.

Our wet areas are carefully designed and delivered, combining flawless craftsmanship and functional style.

Ben Simpson
General Manager

Ben joined DuraCube in 2014, bringing a decade of experience in construction and joinery. He’s passionate about well-thought-out systems that simplify the process for designers and builders, enabling them to create exceptional bathrooms that serve people’s needs for years to come.

Ben thrives on tackling the unique challenges in the commercial bathroom sector and is driven by the opportunity to innovate and overcome them.

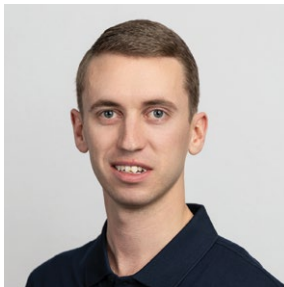

As General Manager, Ben guarantees that customers receive the best from a team that consistently goes above and beyond to deliver exceptional results and long-lasting spaces.

Kasun Jayasinghe
Commercial Manager

Kasun started with DuraCube in August 2021, bringing over 15 years of global experience as a finance professional. Before joining the company, he honed his expertise working across two continents with renowned brands including Ernst & Young and HSBC.

Specialising in risk management, Kasun focuses on finance, cash flow and legal aspects to ensure the company’s sustainability and growth. He also provides strategic support across teams delivering accurate, data-driven insights and visualisations to empower decision-making.

Harry Simpson
Sales Manager

Harry joined DuraCube in 2013, straight after finishing school. Attracted to the niche bathroom joinery industry, he recognised its pivotal role in every project, with the ability to elevate its overall success.

Harry has deep expertise in compact laminate, having researched its complex manufacturing process, and understands its detailed applications. Growing up in a family of builders, he developed a strong practical knowledge of the industry and a hands-on, solution-focused approach.

Harry values fresh ideas, thrives on problem-solving, and navigating challenges head-on.

Nick Serafin
Marketing Manager

When Nick joined DuraCube in February 2024, he brought a fresh perspective to bathroom joinery systems, fuelled by a passion for their evolving role in design. What was once an overlooked functional element is now a highly regarded feature—an exciting shift that inspires Nick daily.

With a strong knowledge of styles and trends, Nick takes the time to ensure customers understand the finished look that best matches their vision.

His team’s tailored solutions make designing and constructing commercial bathrooms easy, addressing current and future needs with precision and care.

Ron Simpson
Major Projects Manager

Ron Simpson has been with DuraCube since 2020 and brings extensive expertise to his role. With strengths in project sales, negotiation, and problem-solving, he excels at managing and delivering complex projects. Before joining DuraCube, Ron spent seven years in the commercial facades sector, working with Tier 1 and 2 builders and gaining valuable experience in large-scale construction.

Ron values DuraCube’s reputation for being forward-thinking, efficient, and reliable — qualities that align with his commitment to excellence.

Athol Simpson
Operations Manager

Athol Simpson has been a director of DuraCube since its inception. His focus is fostering teamwork, supporting employee success, and prioritising customer satisfaction.

Athol brings a wealth of knowledge in commercial construction and project management to his role. He takes pride in seeing well-designed and well-delivered bathroom joinery systems transform essential spaces into standout features.

For Athol, establishing active teams in South Australia, Queensland, Victoria, and New South Wales has been essential to supporting customers whenever needed.

Rick Kennard
Sales Executive

Since March 2021, Rick has been a vital member of the team, drawing on his experience as a fabricator and installer alongside his sales and project management expertise.

Rick is motivated by seeing the finished product come to life. His strengths lie in understanding the importance of meeting deadlines and ensuring every detail aligns with customer expectations.

With a direct and practical approach, Rick helps deliver the experience DuraCube is known for—making commercial bathroom projects fast and easy from start to finish.

Mark Simpson
Co-Founder

As a DuraCube founder, Mark draws on his extensive experience in building, carpentry and joinery. He possesses deep knowledge of designing and fitting bathroom joinery systems that meet industry standards and project requirements.

Mark takes pride in providing smart, practical solutions and finds it rewarding to see happy customers return for future projects. Passionate about innovation, he is excited to see DuraCube’s systems evolve to meet changing client needs, ensuring high-quality, adaptable solutions for every space.

FIRST FOR KNOWLEDGE

MEET OUR LEADERSHIP TEAM

OUR PROCESS

Our skilled professionals have established a proven process for efficiently delivering high-quality, fully customised bathroom joinery within weeks.

Our refined process ensures efficiency, quality, and consistency, delivering exceptional results while meeting your expectations.

Deep Understanding
Your experienced consultant takes the time to assess your design and compliance requirements and talks you through potential enhancements.

Detailed Proposal
We provide a detailed proposal that documents all project specifications, materials, layouts, colours and features, as well as a quote and delivery time.

Site Measurements
If we are installing, we visit your site to take final measurements. If supplying only, we submit marked-up architectural plans with precise measurements for your builders.

Shop Drawings
Our in-house designers prepare comprehensive digital shop drawings based on final measurements for modifications and sign-off.

Quality Manufacturing
Working in our state-of-the-art manufacturing facility in Sydney, our team drills, cuts, and packs all components while conducting a comprehensive end-to-end quality check.

Delivery and Installation
Our skilled installers commence work and make any necessary adjustments. For supply only, we deliver pre-prepared components to align with your project timeline.

WHY DURACUBE?

We collaborate as partners, helping architects, designers and builders deliver innovative, custom-made wet areas. From schools, pools, offices and childcare centres to defence headquarters, end-of-trip facilities, gyms and public spaces, we have delivered superior experiences for hundreds of organisations and communities across Australia.

We are fully accountable for our products’ quality, reliability and performance, down to the last detail — before and after installation. Our work is backed by the DuraCube 15-year warranty.

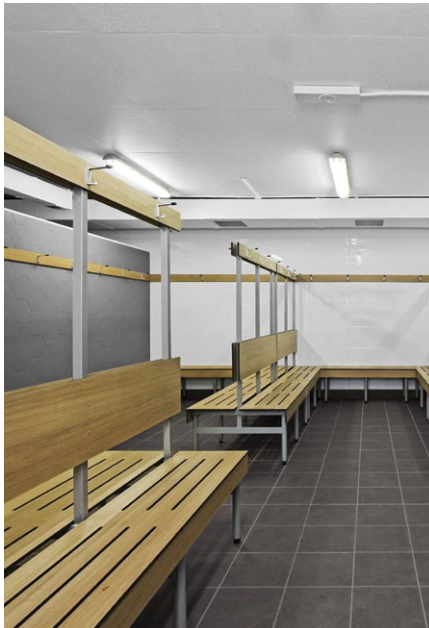

THE
RELIABLE
CHOICE

- 1 **Family Owned & Operated**
Our close-knit team is passionate about personal service, and we’ve worked hard to establish successful, long-term relationships.
- 2 **In-house Design Team**
Our in-house designers work closely with clients and the production team to ensure seamless processes and responsive changes.
- 3 **Trusted Quality & Reliability**
We control the supply chain from materials to delivery, ensuring reliability, speed and quality.
- 4 **Local Warehouse**
With local inventory, we don’t rely on third-party suppliers to keep projects on track.
- 5 **Single Point of Contact**
If you have questions about your project’s progress, your dedicated project manager is always available.
- 6 **Detailed Drawings**
We supply the digital documentation you need to calculate costs, win projects and ensure compliance.
- 7 **100% Accountability**
We pride ourselves on delivering projects with zero or low defects. We also work with you to resolve any issues post-installation.
- 8 **Your Partner Compliance**
We understand Australian building and sustainability regulations to ensure compliance and award eligibility.
- 9 **Experienced Innovators**
We continually strive to create better solutions, drawing on client feedback and industry best practice to meet evolving needs.

We design and manufacture our bathroom joinery systems in Australia using DuraSafe compact laminate — an industry-leading product with a 15-year warranty.

With a continuous commitment to research and development, we invest in optimising our range and features to meet the needs of contemporary architects, builders, and businesses.

PARTITIONS

Toilet & shower partitions
With decades of experience designing and manufacturing commercial toilet and shower partitioning systems, we work with you to deliver the style and functionality you require.

- Complies with the relevant building standards.
- Standard options include pedestal mount, floor mount and full height privacy
- Suits commercial, education, defence and public spaces
- Strong, economical and simple to install

PRIVACY PANELS

Privacy in open-plan settings
Customise your privacy panels with wall mount, pedestal mount or post fixed options in various colours and sizes up to full ceiling height. The panels are typically installed in open-plan bathrooms between urinals, as a substitute for an airlock, or to separate toilets in childcare centres.

- Easy to install
- Unobtrusive
- Suitable for hose cleaning
- Made from low-maintenance compact laminate, aluminium extrusions and stainless steel fixings

LOCKER SYSTEMS

Style, strength and security
Strong, secure, low maintenance and water-resistant, our lockers are made with doors constructed from DuraSafe compact laminate. They are ideal for high-volume areas like schools, gyms, end-of-trip facilities and defence applications.

- Flexible options for colours, layouts and doors
- Available with shelving and coat rails
- Option for vents
- Impact resistant

BENCH SEATING

Comfort, durability and aesthetics
This heavy-duty bench range includes an island, a wall with shelving and a wall with coat rail options. Customise low-maintenance and stylish seating areas that coordinate seamlessly with lockers and partitions.

- Vandal and impact-resistant
- Sturdy powder-coated frames and legs
- Suitable for high-traffic areas that require hose cleaning, such as commercial or public wet area change rooms

VANITY BENCHES

Form and function
Our vanities are available in inset or semi-recessed options, in various colours and customisable sizes. They are made to specification and pre-cut for fast installation.

- Fully waterproof, guaranteed not to swell
- Cost-effective
- Silica-free alternative to engineered or natural stone
- Inset or semi-recessed

COMPACT LAMINATE

Beautiful and durable
Choose from 30 stocked colours, including solid tones and patterns such as woodgrain, stone and concrete in both matt and gloss finishes. Custom colours are also available based on project requirements.

- Backed by a 15-year warranty
- More durable than ordinary laminate
- Moisture and impact-resistant
- Bespoke shapes and sizes available

We work with you to deliver the style and functionality you need while ensuring your design complies with the relevant building standards.

- Features**

ACCESSORIES / HARDWARE

Design and build bathroom joinery tailored to your clients’ needs and your preferred aesthetic. Choose from our selection of sturdy and stylish accessories, including locks, handles, hinges, and more.

Most of our hardware is available in a black or chrome finish, allowing you to customise the space. This includes grab rails and other items designed to improve accessibility and inclusivity.

To view our range of hardware and accessories, visit:
duracube.com.au/bathroom-joinery-hardware-accessories

“By tailoring designs to support modern, team-based and flexible work styles, we are ensuring that tenants feel prioritised and thrive in their environments.”

Dr Donna Wheatley
Partner, Gray Puksand

Rhodes Corporate Park New South Wales

We enhanced the user experience within this A-grade office tower by ensuring privacy and promoting sustainability within this biophilic design. Our team also made certain that the spaces were accessible and inclusive, creating a cohesive aesthetic that seamlessly complemented the architecture. We were proud to deliver an outstanding result within a tight deadline without compromising design integrity.

Customised panels provided privacy, while sustainable materials reinforced the project’s commitment to the environment. Close collaboration with stakeholders ensured a careful balance between innovation and functionality, demonstrating how strategic design can transform workplace spaces.

95 Grenfell Street South Australia

“We found DuraCube to be exceptionally user-friendly throughout our design process. They were highly responsive to our technical inquiries.”

Megan Roper
Interior Designer, MPH Architects

The owner of this premium-grade, 21-storey office tower sought to upgrade the end-of-trip facilities. Working closely with the project team, we delivered a sophisticated, highly functional upgrade featuring bespoke joinery, new lockers, basins, and showers, ensuring a seamless fit with the building’s aesthetic. Cosmetic refinements modernised the space, while a rapid turnaround minimised disruption. The result is a refined, practical amenity that supports an active workplace culture while maintaining the tower’s upscale aesthetic.

Our Products

- Floor mount ceiling fixed toilet partitions
- Floor mount ceiling fixed shower partitions with shower seats
- Lockers plinth mounted with electronic touch pad locks
- Ironing board lockers
- Lockers bench mounted with electronic touch pad locks
- Towel cupboard units (custom)
- Wall panelling (custom)
- DuraSafe Southern Pine for a warm, textured palette

From bold and dramatic to light and restorative, these thoughtfully curated palettes add character and sophistication to any space. Whether embracing timeless neutrals, rich contrasts, or organic warmth, each style enhances functionality while elevating the user experience.

“DuraCube has collaborated with leading Australian design experts to develop this range of distinctive, on-trend palettes that will help you add creativity and character to your space.”
Nick Serafin
Marketing Manager, DuraCube

BIOPHILIC
NATURALS

Organic tranquility
This nature-inspired style brings a positive and rejuvenating energy to commercial bathrooms or end-of-trip facilities through a deeply relaxing palette that is authentic, calming and tranquil.
Warm woodgrains pair with soft bushland greens and gentle river blues to perfectly capture the beauty of the Australian landscape.
This inherently complementary palette connects the interiors with the great outdoors, creating a sense of peace and harmony.

BRIGHTS
AND BOLDS

Statement pieces
This striking style is an education staple that evokes positivity, joy and excitement.
A fun neon palette of yellow, red, green, and blue injects energy and optimism into a space, creating an uplifting and forward-thinking atmosphere.
Its bold, timeless vibrancy transcends trends, making any environment feel dynamic, inspiring, and full of possibility.

CONTEMPORARY
NEUTRALS

Sophistication defined
A contemporary palette of whites, creams, and softened greys, complemented by organic tones and rich woodgrains, creates a sense of calm and balance, making commercial bathroom spaces feel inviting and restorative.
This timeless combination softens the built environment, fostering a connection to nature while maintaining a clean, modern aesthetic.
By blending warmth with understated sophistication, this palette ensures longevity in both style and function, offering a serene retreat in high-traffic settings.

DARK OPULENCE

Dramatic luxury
A dark and opulent palette brings a bold, moody sophistication to commercial bathrooms and end-of-trip facilities, where sharp lines and striking colour contrasts create a refined, high-end aesthetic.
Textured greys and deep browns play against rich blacks and monochromatic hues, adding depth and drama while maintaining a sense of balance.
This confident design approach exudes luxury and precision, transforming everyday spaces into immersive, statement-making environments.

INDUSTRIAL
ELEGANCE

Raw authenticity
This authentic colour palette lets the joinery and fixtures take centre stage, celebrating craftsmanship and detail within a commercial bathroom space.
Cool brushed concretes and steels harmonise with warm woodgrains, grounding the design in authenticity while honouring the structural elements.
This versatile palette adds character and depth, fostering a sense of security and stability that enhances the overall user experience.

MODER-TERRANEAN

Sunny hues
A reimagined Mediterranean palette, more commonly seen in residential bathrooms, blends soft neutrals, muted woodgrains, and intricate mosaic and marble finishes to bring warmth and elegance to end-of-trip facilities.
Black, gold, and brass hardware and tapware enhance the timeless aesthetic, seamlessly complementing contemporary settings.
This design approach, which is light, bright, and stimulating, transforms everyday spaces into refined retreats that feel welcoming and luxurious.

SERVICE AREA

With headquarters and manufacturing in Sydney, we also have offices and depots in Melbourne, Brisbane and Adelaide. We provide onsite installation up and down the east coast from Cairns in Queensland to Port Lincoln in South Australia. We also offer delivery services to other areas.

As a sustainably conscious business, we work to minimise waste and reduce our environmental impact. DuraSafe has an internationally recognised EPD, low VOC, and a Global GreenTag GreenRate Level A Certification.

TESTIMONIALS

Here’s what our clients say about their experiences with us. Their feedback highlights the value and impact we aim to deliver every day.

“I found DuraCube easy to work with, efficient with their shop drawings and corresponding installation. They’re also flexible and worked with us to achieve install timeframes.”

Dylan Easter
Sarah Constructions

“Amazing customer service. Tere and Johnny were great. On time and helpful. Always emailing and texting to keep our company up to date with approval/install date. Definitely highly recommend this company.”

Anita Zappia
All Cabinets Joinery

“Really easy to work with. They were fast and efficient through the whole process, from design to install. Looks great, too!”

Bryon Scott
North Construction & Building

“First class work! I have engaged DuraCube for my toilet partition work over the last five years and have been totally satisfied with their prompt, reliable and masterful finished works.”

Paul Clifford
Newington College

“The project was great, installers were great, Mark was there on time for the check measure. Really happy with what DuraCube did.”

Justin Bisset
QB Interiors

“Tender proposal was competitive, install dates were met, communication was clear and product is good quality.”

Arthur Staikopoulos
Arens Group

“Easy to deal with and kept in the loop the whole way through, even over Christmas and with a tight timeframe. Best of all a great product as well.”

Clinton Nason
Cyclo Construction & Fitout

“DuraCube has always been a very good project partner with solutions and a proactive approach.”

Hazem Gergis
Taylor Construction Group

“Professional service right from the drafting process to manufacture and then delivery to site.”

John Di Trapani
Ladex Construction Group

OUR CLIENTS

We’re proud to collaborate with some of the industry’s most talented architects, builders, and designers. Their trust in our work reflects our commitment to achieving outstanding results on every project.
